## PROTECTING YOUR RETIREMENT IN TODAY'S VOLATILE ECONOMY

*Learn from the past and prepare for the future*

With all that is going on with the economy **today**, planning for **tomorrow** isn't getting any easier. A looming market correction, tax increases, inflation, escalating geopolitical pressures, and countless other factors have American pre-retirees and retirees on edge and looking for answers. Having enough income to not only live, but maintain the lifestyle you deserve takes planning and sound financial advice.

### **Topics to be discussed include:**

- **Increase income, greatly reduce taxes, and guarantee that you and your spouse never run out of money**-without the market risk or fees.
- With national debt now over 18 trillion, **taxes will almost certainly go up** - How will this affect you?
- Avoid the effects of **low interest rates** and the next potential market downturn.
- How to avoid **losing up to 70% of your IRA** to federal and state estate taxes and income taxes!
- Minimize or possibly **eliminate tax on Social Security income**.
- Help protect your wealth, estate, and your legacy **and avoid unintentionally disinherit your family!**

**There is no cost or obligation, but reservations are required.
